

Swizzels Matlow Ltd

Palm Oil Policy

Palm Oil (which is a vegetable oil) is the world's most popular oil. It is versatile, meaning it can be found in many types of products such as animal feed, biofuel, cooking oil, food, cleaning products, personal care items and cosmetics.

Swizzels Matlow are committed to sourcing sustainable palm oil and we are members of the RSPO (Roundtable on Sustainable Palm Oil). We have ensured that where palm oil is present in our products, it is from certified sustainable sources.

Our suppliers are either also members of the RSPO and/or have subscribed to an NDPE policy which stands for No Deforestation, No new Development on Peatland, No Exploitation of people and local communities. This means they are committed to developing responsible palm oil production and building traceable and transparent palm oil supply chains.

The above statement can be found on Swizzels.com.

Jonathan Dee
Purchasing Director
Swizzels Matlow Ltd.
